SFEC

"Often when you think you're at the end of something, you're at the beginning of something else."

Fred Rogers

Sustainable Futures for Enterprise Centres is a transformational project focused on the transition of enterprise centres from high cost, unsustainable centres to prepare them and their tenant base of SMEs for the low carbon and environmentally sustainable economy of the future.

Meet our project partners!

Download our Toolkit & Action Plan

Our [Toolkit and Action Plan](#) have been developed by our pan European team in an effort to guide enterprise centre leaders through a strategic sustainability planning process. This process will bring sustainable practices and ideas to fruition via concrete and applicable learning actions within your Centres.

Haz click [AQUÍ](#) y descárgate la versión en español del Toolkit!

Klik [HIER](#) en download de Spaanse versie van de Toolkit!

Download our Best Practice Climate Actions Compendium

Together the partners have collected [50+ inspirational case studies and best practice examples](#) of how enterprise centres and hubs along with other public buildings are implementing or have already implemented innovative, sustainable and climate change programmes reducing their carbon footprint, improving their environmental practices and future proofing the infrastructure of their buildings.

Download our Online Education Resources for FREE!

The Sustainable Futures for Enterprise Centres [Climate-Action Business Curriculum](#) has been designed specifically for small businesses in Europe's enterprise centre network. The resources meet SME's where they are and inspire them to take action immediately with easy to implement changes.

Our Open Education Resources consist of 6 modules and a facilitator Guide

Co-funded by the Erasmus+ Programme of the European Union
